

## **Offline installation**

Update date: 15-June-2021

Our installer downloads the following components from the Internet:

### **Node JS v14 –**

32bit

[https://monitorsanywhere.com/download/MAWi\\_files/node-v14.16.0-x86.msi](https://monitorsanywhere.com/download/MAWi_files/node-v14.16.0-x86.msi)

64bit

[https://monitorsanywhere.com/download/MAWi\\_files/node-v14.16.0-x64.msi](https://monitorsanywhere.com/download/MAWi_files/node-v14.16.0-x64.msi)

### **IIS Express -**

[http://monitorsanywhere.com/download/MAWi\\_files/iisexpress\\_amd64\\_en-US.msi](http://monitorsanywhere.com/download/MAWi_files/iisexpress_amd64_en-US.msi)

(Required only in case you are installing on Windows 10 Pro/Ent. Not required on Server 2012/2016/2019)

### **Web-Platform -**

32bit

[http://monitorsanywhere.com/download/MAWi\\_files/WebPlatformInstaller\\_x86\\_en-US.msi](http://monitorsanywhere.com/download/MAWi_files/WebPlatformInstaller_x86_en-US.msi)

64bit

[http://monitorsanywhere.com/download/MAWi\\_files/WebPlatformInstaller\\_x64\\_en-US.msi](http://monitorsanywhere.com/download/MAWi_files/WebPlatformInstaller_x64_en-US.msi)

### **SQL Express 2014 –**

64bit

[http://monitorsanywhere.com/download/MAWi\\_files/SQLEXPADV\\_x64\\_ENU.exe](http://monitorsanywhere.com/download/MAWi_files/SQLEXPADV_x64_ENU.exe)

32bit

[http://monitorsanywhere.com/download/MAWi\\_files/SQLEXPADV\\_x86\\_ENU.exe](http://monitorsanywhere.com/download/MAWi_files/SQLEXPADV_x86_ENU.exe)

(You can also install a more recent version of SQL Express or use your own DB server as long as it's Microsoft's MSSQL built)

### **ReWrite URL for IIS:**

32bit

[http://monitorsanywhere.com/download/MAWi\\_files/rewrite\\_x86\\_en-US.msi](http://monitorsanywhere.com/download/MAWi_files/rewrite_x86_en-US.msi)

64bit

[http://monitorsanywhere.com/download/MAWi\\_files/rewrite\\_amd64\\_en-US.msi](http://monitorsanywhere.com/download/MAWi_files/rewrite_amd64_en-US.msi)

### **Start from here:**

In case your network blocks the download of the required components, please follow the steps below before you run the MAWi installer:

1. Enable .NET Framework 3.5 from 'Add Programs and Features' console.

If it requires a download of Windows Updates and these are blocked, please download the cab file from here:

[http://monitorsanywhere.com/download/MAWi\\_files/microsoft-windows-netfx3-ondemand-package.cab](http://monitorsanywhere.com/download/MAWi_files/microsoft-windows-netfx3-ondemand-package.cab)

Copy the CAB file to C:\

Open CMD with admin privileges and copy-paste this line:  
Dism.exe /online /enable-feature /featurename:NetFX3 /source:C:\ /LimitAccess

2. Install Node JS v14 (default, next on everything)
3. Install Web-platform (default, next on everything)
5. IIS Express (**Not Required for Server OS. Default installation, next on everything**)
6. SQL Express (Default installation, next on everything)
7. Install the RewriteURLIIS (Default installation, next on everything)

Download MAWi from the downloads folder.

Follow the steps as shown here:
